Postage on Some Breck's Catalog Items

Certain items are "postpaid." On others we charge a part of the postage, because of high current postal rates. We show the actual weight of such items, and then make a very *nominal* charge per pound, regardless of destination.

This is the fairest method we could devise, and causes a minimum of figuring. UNDER BRECK'S PLAN, YOU ALWAYS PAY MUCH LESS THAN ACTUAL POSTAGE.

Use Breck's printed order sheets for greatest speed and accuracy of service. If you use your own stationery, *be sure to include the nominal postage charges,* to avoid delay and correspondence in connection with your order.
